

# Support Now

## Description

Welcome to Support Now, where unparalleled expertise meets innovation in storage area network solutions.

As a distinguished Brocade **Support Delivery Partner** since 2022, we specialise in providing top-tier support and maintenance for Brocade's advanced storage networking products.

# Our Services

1

## Brocade Gen 7 Technology

Discover Brocade's innovative Gen 7 technology, enhancing storage networking with the FC64-64 blade and the 7850 Extension Switch.

2

## Brocade SDP Status

With our Brocade **Support Delivery Partner (SDP) status**, Support Now offers unparalleled Brocade Direct Support, breaking free from traditional OEM-only service models.

3

## Tailored Solutions for Complex Environments

Our expertise spans from entry-level switching to sophisticated enterprise systems, ensuring comprehensive support for your Brocade infrastructure.

4

## Unified Data Management

Commvault's Complete Backup and Recovery, HyperScale, Orchestrate, and Activate analytics provide versatile, enterprise-grade data management.

# Why Support Now?

1

## Flexible Support Options

As a **Commvault Authorized Support Partner (CASP)**, Support Now offers both Basic and Enterprise support, aligning with your unique requirements.

2

## Localised, Efficient Support

Our **CASP** status ensures you receive expert support, quick resolutions, and support in your local language, enhancing your Commvault experience.

3

## A Trusted Partner

Support Now delivers reliable, personalised support that empowers businesses to optimise their IT infrastructure, backed by our proven expertise and industry-leading partnerships.

4

## Cutting-Edge Solutions

Our Brocade Premier Support integrates proactive monitoring and real-time analytics, using the Brocade Support Link to detect potential network issues before they impact your business operations
